

Explore a career with Novozymes Biologicals, the world leader in the research, development, and application of microorganisms. Our enzyme and biological solutions are a cleaner and greener alternative to chemicals. Our technology supports a variety of industries including industrial, institutional, consumer, wastewater and plant care. Located in the scenic Roanoke Valley of Virginia, we are convenient to both the Blue Ridge Parkway and Virginia Tech. Our picturesque location and unique company culture provides a beautiful place to live as well as an exciting career opportunity.

We invite you to join us on the road to the future – a road where biological solutions drive stronger business, a cleaner environment and better lives.

FIELD DEVELOPMENT SCIENTIST / ENGINEER

We are seeking an energetic, results-oriented Scientist or Engineer to provide technical support to sales, subsidiaries, distributors, and end users in industrial wastewater treatment (IWT). This individual will provide guidance, product recommendations, and application follow-through, including on-site service, as well as manage and perform laboratory treatability studies. Additionally, this position will conduct field evaluations of pre-commercial products as well as participate in new product/technology development relative to customer needs. The successful candidate should have excellent communication and interpersonal skills as well as the ability to work independently on projects relative to the business.

Requirements

- M.S. in Environmental Science, Environmental Engineering, or Microbiology, a related natural science discipline or a B.S. in related discipline as previously noted with 3-5 years industry experience.
- Demonstrated commitment to excellence in biological treatment of industrial waste streams. A minimum of 1-2 years post-college work experience in a related field is required – relevant internships will count towards this requirement.
- Ability to work independently on projects with minimal supervision and self-manage workload.
- Excellent oral and written communication skills – samples desired.
- Proficiency in Microsoft Office.
- Ability to multi-task in a fast-paced environment.
- Strong organizational skills.
- Ability to work successfully in a team environment with demonstrated ability to interact effectively within and across departmental lines.
- Ability and willingness to travel - U.S. and international - (20-40%).
- Working knowledge of wastewater treatment strongly desired.
- Ability to work in the U.S. without sponsorship.
- Relocation to Salem, VA required. Relocation assistance may be available to qualified candidate.

Novozymes Biologicals offers an attractive starting salary and comprehensive benefits package. Interested and qualified candidates are invited to submit a cover letter with salary requirements and resume in MS-Word format to:
